Technology Acceptable Usage Contract

Springfield Catholic Schools have electronic information services (INTERNET) available to students and teachers. We strongly believe in the educational value of the internet and recognize the potential of such to support our curriculum and student learning. The use of the internet or any technology at school is a privilege, not a right, and inappropriate use will result in cancellation of privileges and possible suspension from school.

Guidelines for appropriate use:

1. The use of the internet will be for the purpose of research relating to support and enrichment of class assignments.
2. The internet may not be used for any non-school related or illegal purposes including social networking or instant messaging.
3. Any comment posted that includes the use of profanity, rude language, cyber-bullying, threats to persons or property, or any languages considered unfit for students is not acceptable.
4. Restrictions on use will be moderated by the teacher, staff person or adult volunteer.
5. There are areas on the internet which contain sites not appropriate for student use. Any student accessing these sites will forfeit internet/computer privileges.
6. In addition, improper technology use includes, but is not limited to:
 - a. Violating copyright laws
 - b. Damaging computers or equipment
 - c. Attempting to gain unauthorized access to other systems
 - d. Willfully introducing harmful/destructive programs or viruses

* I have read these rules and understand that computer/technology privileges will be suspended or revoked or suspension from school can result if any rules are broken. This agreement is in effect for the years of enrollment at the school checked above. I agree to follow the guidelines for appropriate use, including all revisions/updates, posted on the school website and noted in our newsletter.

I grant permission for my child to access networked computer services such as the internet. I have read these rules and understand that privileges will be suspended or revoked or suspension from school can result if any rules are broken. I understand that individuals and families may be held liable for violations that result in damage. I understand that some materials on the internet may be objectionable, but I accept responsibility for guidance of internet use – setting and conveying standards for my child to follow when selecting, sharing or exploring information and media.
